“Letter from the Chairman – Dr. Bongani Augustine Khumalo”

It is with great gratification that I would like to signal to you my latest venture, Global African Placements (Pty) Ltd. I am the Chairman and shareholder of this provider of Executive Human Capital Solutions which, in the not too distant future, will be to some of the most progressive companies in South Africa.

Our defining quality is our network and national footprint - staffed by a select team of professionals with an intimate understanding of the nuance of their particular markets and clients.

Global African Placements (Pty) Ltd has formed a strategic alliance with a national player, Anglo African Personnel (Pty) Ltd, to allow us to springboard into greatness.

The fact that we assign a single point of contact to your business helps us provide a tactical solution, alive to the economic, cultural and commercial realities. Understanding your business methodologies will enable us to effectively mould resources that will contribute to the profitability of your company.

Against the background of the foregoing, we would like to show you our value proposition. I have every confidence that we will prove to be of such relevance that we can begin to craft a mutually-useful professional partnership going into the future.

Dr. Bongani Aug Khumalo
Chairman
